A section for "Sunday, November 11" lists speakers: Larry Ellison (CEO, Oracle) and Safra Catz (President and Chief Financial Officer, Oracle). A "Sunday Night Live" event is also mentioned. Nov 18 2007 **Dreams, Rhiannon from OpenWorld**
Posted by admin in Crystal Visions, corporate shows, concert video

Here are short clips of Stevie performing "Dreams" (left) and "Rhiannon" at the Oracle OpenWorld concert. Stevie sounds and looks great. Many thanks to YouTubers lleung8 and movingsalesf (who provided an **early review** of the show) for capturing and sharing them! My favorite part is the techie in the back of the crowd gettin' downwwn in the "Rhiannon" clip. This just shows that >>>EVERYONE<<< loves Stevie...or gets loopy drunk at tech conventions. Hopefully both!
